

# Cursor AI For Advanced Users L-12

Code Review & Rules with  
Cursor AI

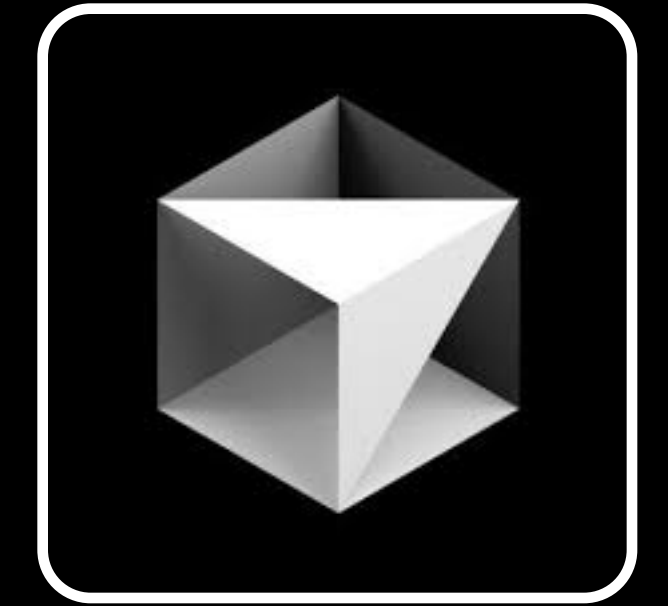

# Overview

- Writing working code != writing good code
- Clean, secure and consistent code = maintainable software
- Manual reviews are time-consuming and often focus on surface level issues
- Cursor AI acts as an automated reviewer, helping enforce best practices and spot deeper flaws early

# Review

- Demo

# Rules

- Create a rules file
- Prompt:
  - Please go through the full project and verify that it complies with the defined rules and standards
