

Cursor AI For Advanced Users L-5

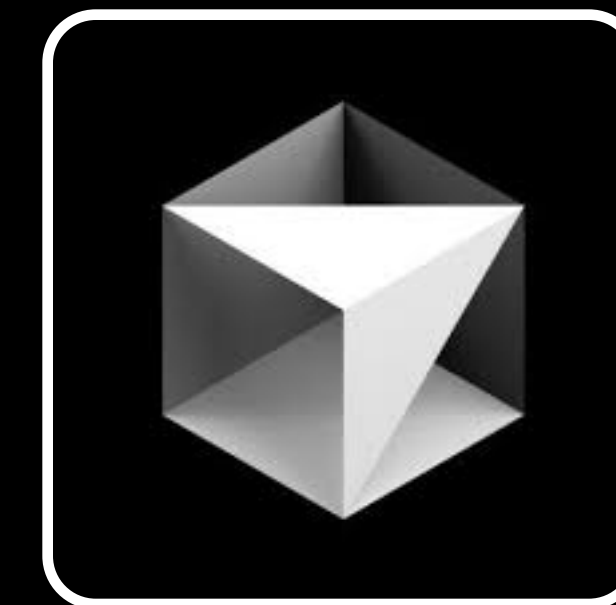

Debugging & Fixing Issues
with AI

Overview

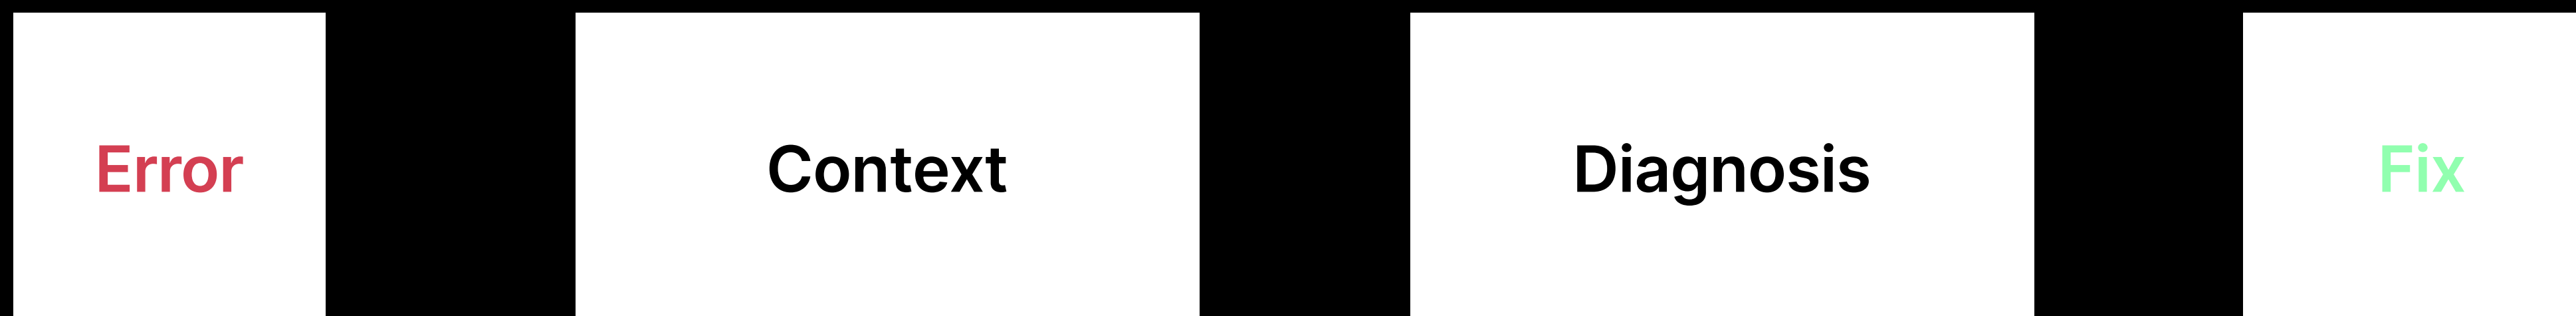

- Debugging as a conversation
- Auth callback
- UI fixes
- Project rules

Debugging as a conversation

- Traditional debugging = manual searching and trial/error
- In Cursor, every error starts a conversation...
- You share logs, screenshots, and symptoms
- The AI explains, hypothesizes, and proposes fixes interactively

Lets Fix some issues

- Google Auth callback
- UI Inspiration
- Fix the navbar (Logo + Name, Search Bar, Profile)
- Fix the left sidebar (My Blogs, Drafts, Feed, Create a new Blog)
